

# DAMIR CENGIC

PRODUCT DESIGNER

Tech & crypto enthusiast. Hodler. Lover of contemporary philosophy. Occasional adrenaline junkie. Science believer. Free speech protagonist. INFJ-A personality type.

I try my best not ake myself too seriously.

## UI/UX Product Designer, Binance | 2018 - Current

Working solo-design on several different products. Responsibilities cover the full design cycle. Binance is one of the most recognisable cryptocurrency exchanges in the world.

## UI Designer, Social Explorer | 2017 - 2018

Contributed UI work as part of a larger team. Work included multiple projects across the company ecosystem and highly complex interfaces, given the nature of geospatial data.

## UI Designer & Dev, Freelancer | 2013 - 2018

For several years, I was working as a freelance UI Designer and Web Developer (mostly frontend) on vastly differing tasks, including contributions to open source initiatives.

2014-2018  
Sarajevo

**Computer Science, BSc**  
SSST & Buckingham University  
Minor: Management & Econ

2014-2021\*  
Sarajevo

**Communicology, BA**  
Fakultet Političkih Nauka, UNSA
